### *Thank you valued customers!*

We would like to take this opportunity to let everyone know how much we appreciate your business with our organization. It is because of you that Total Fire Protection has been in business for 29 years and has become a leader in the Fire Suppression Industry. Our service and inspection department continues to grow and strives to meet the demands placed on business owners. Whether it is an annual inspection, replacement parts, or your system has failed, Total Fire Protection has the ability to meet all of your business needs. Total Fire Protection has a 32,000 SF facility where we have a state-of-the-art fabrication shop, material warehouse, in-house design team, and licensed technicians and journeyman.

Each business requires an insurance program that speaks their language. Our insurance coverage protects our business relationships. With a \$5,000,000 umbrella policy, it ensures that you, as a business owner, are not at risk to negligence, or exposed to an under-insured claim.

Why is it important to you that Total Fire has its own fabrication, material inventory, design teams and is properly insured? As a business owner it is important to protect your assets. Total Fire Protection ensures that your facility is properly equipped to face a fire emergency and compliant with all applicable regulatory codes. In an event of an emergency, our fabrication shop and on-hand material from our inventory will ensure that your business disruption time will be minimal. Having access to material and fabrication of material, in realtime, verses going through a third party separates our company from many others.

Contractors that install fire sprinkler systems know that well-designed systems provide an extra layer of protection for their customers. Our engineers coordinate with our technicians to safeguard against potential threats.

Total Fire Protection also values the continued learning and professional growth of our employees. We encourage each individual to reach their full potential. This philosophy has contributed to the success of Total Fire Protection and will be the cornerstone of our future success.

Thank you again, we sincerely hope each of you had a great 2013 and we are looking forward to a prosperous and healthy 2014.

Richard C. Brandt  
President

Thanks you!
